

# THAAD

## Terminal High Altitude Area Defense

THAAD is designed to intercept threats both inside and outside the atmosphere in addition to providing significant mass raid capability. THAAD is combat proven and uses Hit-to-Kill technology to enable its lethal aim-point accuracy against short, medium and intermediate-range ballistic missiles.

Ability to intercept missiles inside and outside the atmosphere

Defends population centers and high value infrastructures

Interoperable with other ballistic missile defense systems

Highly mobile and deployable worldwide

## Milestones

100%  
Flight test intercept success rate

\$2B  
contract award for THAAD interceptors  
July 2025

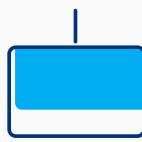

\$2.8 Billion  
IDIQ Development contract award for THAAD interceptor  
Feb 2025

## Interceptor Deliveries

Combat-proven  
Reliable and Ready

Active Batteries:

7 United States  
2 United Arab Emirates  
1 KSA

International Customers:

United Arab Emirates  
Kingdom of Saudi Arabia

## Economic Impact

18,000+ direct & indirect jobs

742 Suppliers, 42 states
